

On March 17, 2010, Dr. Juntao Hu suddenly passed away leaving behind his beloved wife, Qi Wang, and adorable 5-year-old twin daughters, Makayla and Rachel. If you were fortunate enough to know Juntao personally, you knew he was a kind and thoughtful person that strove to live a life of kindness and compassion and was dedicated to his wife and children.

Dr. Hu received his B.S. degree from Cheng Du Electronic and Telecommunication University and his Ph.D. from the University of Michigan. He served as a member of the R&D staff at Nortel, and later at Network Device Inc. and Alpha Industries where he made many contributions to the technology used in cellular phone applications. In 2002, Dr. Hu and his family moved to our community in Conejo Valley, serving as an R&D engineering manager at Skyworks. Through his work, he benefitted the scientific community with many papers on power amplifier technology and modeling.

On the evening of March 17, 2010, this avid cyclist and passionate photographer took his camera and backpack and rode up a nearby hilltop to enjoy the fresh air and to capture the beautiful sunset.

Unfortunately, a heart ailment took his young life – this sudden loss has left his family and friends, alike, in a state of total shock.

For the past few years, Dr. Hu' wife has put aside her own career to focus on being a stay-at-home mom for their young twin daughters. Juntao's sudden death has left his family, not only emotionally shattered, but in a state of limbo, financially. To help his family in this time of crisis, any help and support you can provide, financial or otherwise, is greatly appreciated.

2010年3月17日，

胡君涛博士突然去世，留下了他心爱的妻子王旗和一对可爱的5岁双胞胎女儿，胡芯瑜和胡芯瑞。认识君涛本人的朋友，都知道他是一位善良和体贴的丈夫，竭力把仁慈和温情生活带给他的妻子和孩子们。

胡博士从成都电讯工程学院获得学士学位后，来美在密歇根大学获得博士学位。他曾是北电的研发工程师，后来在网络器件公司和阿尔法公司任职，对手机应用技术作出许多贡献。

2002年，胡博士和他的家人搬来我们的康谷社区，担任Skyworks公司研发经理一职。他把许多功率放大器技术和计算模型的论文弥留给了科学界。

2010年3月17日傍晚，这位酷爱运动的自行车手和热情的摄影爱好者带着相机和背包，骑车到康谷附近的一个山顶享受清新的空气，捕获美丽的夕阳。不幸，心脏病突发夺走了他年轻的生命，突如其来的噩耗震惊了所有的家人和朋友。

在过去的几年里，胡博士的妻子为了他们年幼的双胞胎女儿放弃了自己的职业生涯，全心全意留在家中做全职妈妈。君涛的突然去世对其家庭在精神上和经济上都造成了巨大的创伤。为了帮助他的家人度过这一艰难危机的时刻，我们非常感谢大家能够提供经济上或其他方式的帮助和支持。
